**NEW QUESTION: 1**
In the Windows environment, the storage appliance supports the use of local groups in managing users and groups.
**A.** False
**B.** True
**Answer: B**

**NEW QUESTION: 2**

**A.** Option D
**B.** Option B

**C.** Option A
**D.** Option C
**Answer: C**
Explanation:
Explanation
Creating a Final Snapshot and Retaining Automated Backups
When you delete a DB instance, you can choose whether to create
a final snapshot of the DB instance. You can also choose to
retain automated backups after the DB instance is deleted. To
be able to restore the DB instance at a later time, create a
final snapshot or retain automated backups.
With Final Snapshot
Without Final Snapshot
Retain Automated Backups
How to choose
To be able to restore your deleted DB instance at a later time,
create a final DB snapshot.
To delete a DB instance quickly, you can skip creating a final
DB snapshot.
Important
If you skip the snapshot, to restore your DB instance you need
one of the following:
* You have to use an earlier manual snapshot of the DB instance
to restore the DB instance to that snapshot's point in time.
* You have to choose to retain automated backups; you can use
those to restore it to any point in time
* within your retention period.
Instead of creating a snapshot, you can choose to enable Retain
automated backups when you delete a DB instance. These backups
are still subject to the retention period of the DB instance
and age out the same way systems snapshots do.
Automated backups
All automated backups are deleted and can't be recovered,
unless you enable Retain automated backups.
All automated backups are deleted and can't be recovered,
unless you choose to retain automated backups when you delete
the DB instance.
Automated backups are retained for a set period of time,
regardless of whether you chose to create a final snapshot.
They are retained for retention period that was set on the DB
instance at the time you deleted it.
Manual snapshots
Earlier manual snapshots aren't deleted.
Earlier manual snapshots aren't deleted.
No snapshots are deleted.
You can't create a final snapshot of your DB instance if it has
the status creating, failed, incompatible-restore, or
incompatible-network. For more information about DB instance
statuses, see DB Instance Status.

**NEW QUESTION: 3**

When designing a Wi-Fi client access network to provide coverage to handheld devices, which statement is most correct regarding antennas?
**A.** Specify antenna height to be about 6-8 meters.
**B.** Specify antenna height to be as high as possible - 20 meters or more, if possible
**C.** If specifying an omnidirectional antenna, due to their 360-degree coverage, antenna height is not a consideration.
**D.** Specify antenna height to be as low as possible - 1-2 meters, if possible
**Answer: A**

**NEW QUESTION: 4**
Conner purchased 300 shares of Zinco stock for $30,000 in 1980. On May 23, 1994, Conner sold all the stock to his daughter Alice for $20,000, its then fair market value. Conner realized no other gain or loss during 1994. On July 26, 1994, Alice sold the 300 shares of Zinco for $25,000.
What amount of the loss from the sale of Zinco stock can Conner deduct in 1994?
**A.** $5,000
**B.** $3,000
**C.** $10,000
**D.** $0
**Answer: D**
Explanation:
Explanation
Choice "a" is correct. Even though Conner has a realized loss of $10,000 on this transaction he cannot deduct the loss since it was incurred in a transaction with his daughter, a related party.
Choice "b" is incorrect. $3,000 is the limit on deductible net capital losses. However, Conner cannot deduct this loss, since it was incurred in a transaction with his daughter, a related party.
Choice "c" is incorrect. Conner's realized loss on the sale is $10,000 ($20,000 proceeds less $30,000 basis). However, Conner cannot deduct this loss, since it was incurred in a transaction with his daughter, a related party.
Choice "d" is incorrect. $10,000 is Conner's realized loss on the sale. However, Conner cannot deduct this loss, since it was incurred in a transaction with his daughter, a related party.
