Besides, the product you buy will be updated in time within 150 Days for free.

NEW QUESTION: 1

Welches der folgenden Beispiele ist der einfachste Festpreisvertrag?

- A. MÃ¼ndliche Vereinbarung
- B. Angebotsanfrage
- C. Bestellung
- D. Bestellanforderung

Answer: C

NEW QUESTION: 2

You are designing a data warehouse for a software distribution

business that stores sales by software title. It stores sales targets by software category. Software titles are classified into subcategories and categories. Each software title is included in only a single software subcategory, and each subcategory is included in only a single category. The data warehouse will be a data source for an Analysis Services cube. The data warehouse contains two fact tables:

factSales, used to record daily sales by software title

factTarget, used to record the monthly sales targets by software category

Reports must be developed against the warehouse that reports sales by software title, category and subcategory, and sales targets.

You need to design the software title dimension. The solution should use as few tables as possible while supporting all the requirements.

What should you do?

A. Create two tables, dimSoftware and dimSoftwareCategory.

Connect factSales to dimSoftware and factTarget to dimSoftwareCategory with foreign key constraints. Direct the cube developer to use key granularity attributes.

B. Create three software tables, dimSoftware, dimSoftwareCategory, and dimSoftwareSubcategory.

Connect factSales to all three tables and connect factTarget to dimSoftwareCategory with foreign key constraints. Direct the cube developer to use key granularity attributes.

C. Create one table, dimSoftware, which contains Software Detail, Category, and Subcategory columns.

Connect factSales to dimSoftware with a foreign key constraint. Direct the cube developer to use a non-key granularity attribute for factTarget.

D. Create three software tables, dimSoftware, dimSoftwareCategory, and dimSoftwareSubcategory and a fourth bridge table that joins software titles to their appropriate category and subcategory table records with foreign key constraints. Direct the cube developer to use key granularity attributes.

Answer: C

NEW QUESTION: 3

If a private security officer violates the restriction of the laws of arrest that apply to him or her, he or she may:

A. Be held liable for damages in a civil suit

B. Jeopardize the case against the subject

C. None of the above

D. Be subject to criminal charges

E. All of the above

Answer: E

NEW QUESTION: 4

For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

Answer :

Explanation:
