- E. Style Sample

Answer: A

Explanation:

Explanation: Supplemental documents such as procedures, instructions, reference material, and so on, can be uploaded into a report package as a supplemental doclet.

Supplemental documents can be any type of document file (for example, PDF, Excel, Word, and so on). As the content for supplemental doclets is not included within the merged report, these doclets are excluded from the review and sign off processes. The supplemental doclet contents cannot be viewed online, but users can download and use native programs to open the supplemental doclet in the same way that you can work with third party artifacts in the library.
