### Answer :

Explanation:

See explanation below.

Explanation

We need to create a Gateway subnet

Step 1:

Go to More Services > Virtual Networks

Step 2:

Then click on the VNET1017, and click on subnets. Then click on gateway subnet.

Step 3:

In the next window define the subnet for the gateway and click OK

It is recommended to use /28 or /27 for gateway subnet. As we want to maximize the IP address space we should use /27.
