**NEW QUESTION: 1**

In which of the following situations should you call for immediate assistance?

- A. You must care for two critical patients with gunshot wounds.
- B. Your patient is a 26-year-old woman in active labor.
- C. Your patient is a child with fever who has had a brief seizure.
- D. Your partner is needed to stabilize the cervical spine.

**Answer: A**

Explanation:

Explanation/Reference:

Explanation:

You could make the argument that you need additional help in the management of each of these situations; however, the one with the most critical need is when you must care for more than one critical patient. Both patients with gunshot wounds need immediate attention, so you should call for backup.

**NEW QUESTION: 2**
