And if you have any questions, you can contact us at [Valid H13-611 V4.5 Exam Camp](#) any time since we offer 24/7 online service for you, We have built good reputation in the market now, Then our PC version of our C1000-118 Soaj exam questions can fully meet their needs only if their computers are equipped with windows system.

We have built a good reputation in the market, **C1000-118 Latest Exam Test** The SOFT version simulates the real exam which will give you more realistic feeling.

NEW QUESTION: 1

In this section, you will see one or more sets of questions with the same scenario and problem. Each question presents a unique solution to the problem, and you must determine whether the solution meets the stated goals. Any of the solutions might solve the problem. It is also possible that none of the solutions solve the problem.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Note: This question is part of series of questions that present

the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has deployed several virtual machines (VMs) on-premises and to Azure. Azure Express Route has been deployed and configured for on-premises to Azure connectivity.

Several VMs are exhibiting network connectivity issues.

You need to analyze the network traffic to determine whether packets are being allowed or denied to the VMs.

Solution: Use Azure Network Security Group analytics solution in Azure Log Analytics to analyze the network traffic.

Does the solution meet the goal?

A. Yes

B. No

Answer: B

Explanation:

Explanation/Reference:

Explanation:

Use the Wire Data solution in Azure Log Analytics to analyze the network traffic.
