NEW QUESTION: 2

Your customer has enabled encumbrance accounting. You have a control budget with the advisory level set at control. For November 2015, your budget for a given combination is \$5,000 USD. You have an approved requisition of \$900 USD and you have an approved purchase order of \$2,500 USD. An adjustment encumbrance journal is created in the General Ledger for the obligation type for \$1,600 USD. You then cancelled the

approved PO line of \$400 USD. For November 2015, you created a new invoice by matching to the PO for \$2,100 USD.

Which two statements are true?

A. As you are matching to a purchase order, the system will allow the user to create an invoice with the reservation status of Reserved.

B. As there are cancellations for \$400 USD, the system will partially reserve the funds in November 2015 and fully reserve it in December 2015.

C. The system always consumes budget of future periods if the limit for the current period is expired, so December 2015 budget will be considered for reservation.

Answer: B

Explanation:

When we have a Regulation, such as the GDPR, all EU Member States are obliged to follow it and have a fixed date to entry into force. The regulation is a law and Member States cannot create laws that oppose it. Unlike the Directives that set objectives to be achieved, however, each Member State is free to decide how to apply them in their countries.

Important

Prior to the GDPR, there was a Directive "95/46 / EC First Data Protection Directive. Approved in 1995, it was already aimed at protecting personal data. This directive was replaced by GDPR.

"Article 94: 1. Directive 95/46 / EC is repealed with effect from 25 May 2018." In the EXIN PDPF exam this is an issue that is routinely asked. "Which directive has been replaced by

GDPR?" Correct answer: 95/46 / EC.
