Are you a busy and want to pass EAPA2101B certification exam.

NEW QUESTION: 1

Why is using Difference Disk Image mode the best solution?

- A. It offers the same benefits of Standard Image mode and will allow for the installation of XenApp applications to be saved between reboots, saving administration time and effort.
- B. This mode can save time in the testing phase of XenApp while the applications are being tested before implementation in the production environment.
- C. This mode will allow for the XenApp updates to be saved between reboots, saving administration time and effort.
- D. It simplifies the XenApp updates by allowing changes to be kept between reboots. This means the image does not need to be placed in Private Image mode, updated and then changed back to a shared mode.

Answer: D

NEW QUESTION: 2

How many responses are received when a router sends an IGMP version 2 query to a specific multicast group with 6 active receivers on the local broadcast domain?
