- A. Apartments or hotels where molding is accessible in the work area
- B. Equipment rooms where cable tray is cost prohibitive
- C. Warehouses with minimal telecommunications services
- D. Small floor areas where the majority of telecommunication services will be along the walls
- E. Underfloor pathway

Answer: D

NEW QUESTION: 2

- Ensures that administrators in India can approve certificates for users in the India domain. - Minimizes costs.

What should you recommend?

- A. Configure CA permissions and the Exit Module of the CA.
- B. Configure CA permissions and Certificate Managers

Restrictions.

C. Deploy an enterprise subordinate CA to the domain in India.

D. Deploy a standalone subordinate CA to the domain in India.

Answer: B

Explanation:

Explanation/Reference:

Topic 7, Woodgrove Bank

Company Overview

Woodgrove Bank is an international investment banking institution. Woodgrove Bank has a partner company named Contoso, Ltd.

Physical Location

Woodgrove Bank has a main office and 10 branch office. Each branch office has a WAN link to the main office.

Existing Environment Active Directory Environment

The Woodgrove Bank network contains an Active Directory forest named

woodgrovebank.com. The forest contains multiple domains and one Active Directory site.

The functional level of the forest is Windows Server 2003.

Each office has domain controllers for the forest root domain.

Each office also contains

domain controllers for at least one other domain.

The Contoso network contains an Active Directory forest. The forest contains one domain

named contoso.com. The functional level of the domain is Windows Server 2003.

Network Infrastructure

The woodgrove Bank network contains the following applications and servers:

A line-of-business application named Appl.

Servers that run either Windows Server 2003 or Windows Server 2008.

Domain controllers in the main office run Windows Server 2003.

An enterprise root certification authority (CA) that runs Windows Server 2003. The

certificate revocation list (CRL) is published to an internal Web site.

All client computers in the contoso.com run a 64-bit version of Windows 7.

Security Model

Users in Woodgrove Bank's research department are required to use smart card authenticate to log on to the network.

Requirements Planned Changes

Woodgrove Bank plans to implement the following changes:

Provide Contoso users access to Appl.

Deploy a satellite office that will have one domain controller.

Provide users in both companies access to the resources in either forest by using

a single set of credentials.

-
Implement e-mail notification for department managers when new versions of shared documents are saved to a network location.
Technical Requirements
All users in the planned satellite office must always attempt to authenticate to their local domain controller first.
Security Requirements
-- - - - -

Woodgrove Bank must meet the following security requirements:
Server in contoso.com must be able to trust certificates issued by the CA of woodgrovebank.com.
Appl must only be available to Contoso users when the users are connected to the Woodgrove Bank network.
Users in contoso.com must be able to automatically enroll for certificates from the CA of Woodgrove Bank.
Internal auditors must have full administrative rights on all client computers in the finance department.
Only client computers that have Microsoft Forefront EndPoint Protection installed must be able to remotely connect to the Woodgrove Bank network.

NEW QUESTION: 3

Which route-filter allows you to block all prefixes more specific than a /19, but less specific than a /25 for the 192.168/16 block?

- A. 192.168/16 prefix-length-range /20-/24 reject
- B. 192.168.0/19 upto 192.168.0/25 reject
- C. 192.168.0/20 upto 192.168.0/24 reject
- D. 192.168.0/20 through 192.168.0/24 reject

Answer: A

NEW QUESTION: 4

You are configuring internal virtual networks to support multitenancy communication between tenant virtual machine networks and remote sites.

You have a tenant named Tenant1.

You need to enable Border Gateway Protocol (BGP) for Tenant1. Which commands should you run? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:
