The answer is very simple, You can experience it in advance, If you are using our product bundle for IIA Certification IIA-CIA-Part1-3P-CHS exam, then you will be able to clear the exam on your first attempt.

Isn't it very easy, Our IIA-CIA-Part1-3P-CHS exam review contains the latest test questions and accurate answers along with the professional explanations, You can not only save your time and money, but also pass exam without any load.

Soaj simulates IIA's network hardware and software **Dumps IIA-CIA-Part1-3P-CHS Cost** and is designed to help you learn the technologies and skills that you will need to pass the IIA Certification certification.

#### **NEW QUESTION: 1**

Universal Containers requires Salesforce to send expense data to an accounting system. Each user has their own username/password credential to access the account system via integration.

What is a recommended option for an integration approach from a security perspective?

- A.** Fire outbound messages to a middleware that stores the credentials instead of an Apex callout.
- B.** Set up a Named-Principal Named Credential and have the administrator set up the username/password.
- C.** Use hierarchical custom settings to store the

username/password allowing the Apex callout to read it.

D. Set up a Per-User Named Credential and have the users each set up their username/password.

**Answer: D**

**Answer: B**

**NEW QUESTION: 3**

Covert Channel Analysis is first introduced at what level of the TCSEC rating?

- A. B1 and above.
- B. B2 and above.
- C. C2 and above.
- D. B3 and above.

**Answer: B**

Explanation:

The Orange Book first introduce a requirement for Covert Channel Analysis at level B2 and all levels above B2 would also require this.

The AIO defines a Covert Channel as a communications path that enables a process to transmit information in a way that violates the system's security policy. It is a communication channel that allows two cooperating processes to transfer information in such a way that it violates the system's

security policy. Even though there are protection mechanisms in place, if unauthorized information can be transferred using a signaling mechanism via entities or objects not normally considered to be able to communicate, then a covert channel may exist.

The following answers are incorrect:

C2 and above. Is incorrect because, the Orange book requires Covert Channel Analysis only starting at level B2 and above, level C2 is lower than B2 and it would not require covert channel analysis.

B1 and above. Is incorrect because, the Orange book requires Covert Channel Analysis only at level B2 and above, level B1 is lower than B2 and it would not require covert channel analysis.

B3 and above. Is incorrect because, the Orange book first requires Covert Channel Analysis at level B2.
