Answer: A

NEW QUESTION: 3
What are the obvious shortcomings of TDD duplex mode relative to FDD?
A. In order to avoid interference with other wireless systems, TDD needs to reserve a larger guard band, which affects the overall spectrum utilization efficiency.
B. The TDD system is limited in its heart, so the coverage of the TDD base station is significantly smaller than that of the FDD base station.

C. Since the time resources of the TDD method are respectively given to the uplink and downlink, the transmission time of the TDD method is only about half of that of the FDD. If the TDD is to transmit as much data as the FDD, the transmission power of the TDD is increased.
D. The TDD system sends and receives channels at the same frequency, which cannot interfere with interference, and there is interference between systems in the system.
Answer: A,B,C,D
