Implementation exam for several times and waste much money.

Also you can download any date and unlimited times, If you are the person who is willing to get C-C4H260-01 exam prep, our products would be the perfect choice for you.

NEW QUESTION: 1

What is the purpose of Route Target Constraint?

- A. to avoid BGP having to perform route refreshes
- B. to avoid using multiple route distinguishers per VPN in MPLS VPN networks
- C. to be able to implement VPLS with BGP signaling
- D. to avoid sending unnecessary BGP VPNv4 or VPNv6 updates to the PE router
- E. to avoid using route reflectors in MPLS VPN networks

Answer: D

Explanation:

Some service providers have a very large number of routing updates being sent from RRs to PEs, using considerable resources. A PE does not need routing updates for VRFs that are not on the PE; therefore, the PE determines that many routing updates it receives are "unwanted." The PE can filter out the unwanted updates using Route Target Constraint.
