Certification Mode (timed) prepares you for "exam taking" conditions, **C_ARCON_2108 Test Questions Pdf** The dumps are in fact the gist of the entire syllabus and are useful to obtain a

memorable success in exam.

NEW QUESTION: 1

In which of the following manners can Quidway router be configured?

- A. Configuring through console port
- B. Configuring through remote login
- C. Configuring through dial
- D. Transmitting configuration file through FTP

Answer: A,B,C,D

NEW QUESTION: 2

According to NIST, which choice below is not an accepted security selftesting technique?

- A. Password Cracking
- B. Virus Distribution
- C. War Dialing
- D. Virus Detection

Answer: B

Explanation:

Common types of self-testing techniques include: Network Mapping Vulnerability Scanning Penetration Testing Password Cracking Log Review Virus Detection War Dialing Some testing techniques are predominantly human-initiated and conducted, while other tests are highly automated and require less human involvement. The staff that initiates and implements in-house security testing should have significant security and networking knowledge. These testing techniques are often combined to gain a more comprehensive assessment of the overall network security posture. For example, penetration testing almost always includes network mapping and vulnerability scanning to identify vulnerable hosts and services that may be targeted for later penetration. None of these tests by themselves will provide a complete picture of the network or its security posture. Source: NIST Special Publication 800-42, DRAFT Guideline on Network Security Testing.

NEW QUESTION: 3

You have an Azure virtual network named VNet1 that connects to your on-premises network by using a site-to-site VPN. VNet1 contains one subnet named Subnet1.

Subnet1 is associated to a network security group (NSG) named NSG1. Subnet1 contains a basic internal load balancer named ILB1. ILB1 has three Azure virtual machines in the backend pool.

You need to collect data about the IP addresses that connects to ILB1. You must be able to run interactive queries from the Azure portal against the collected data.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation

Box 1: An Azure Log Analytics workspace

In the Azure portal you can set up a Log Analytics workspace, which is a unique Log Analytics environment with its own data repository, data sources, and solutions
Box 2: ILB1 References:
