NEW QUESTION: 3A. Option BB. Option AC. Option DD. Option C
Answer: DExplanation: Security Considerations for Trusts Need to gain access to the resources in contoso.com Disabling SID Filter Quarantining on External Trusts Although it reduces the security of your forest (and is therefore not recommended), you can disable SID filter quarantining for an external trust by using the Netdom.exe tool. You should consider disabling SID filter quarantining only in the following situations: * Users have been migrated to the trusted domain with their SID histories preserved, and you want to grant them access to resources in the trusting domain based on the SID history attribute. Etc. Incorrect: Not B: Enables administrators to manage Active Directory domains and trust relationships from the command prompt, /quarantine Sets or clears the domain quarantine. Not D: Selective authentication over a forest trust restricts access to only those users in a trusted forest who have been explicitly given authentication permissions to computer objects (resource computers) that reside in the trusting forest.
