The questions of the free demo are part of the H13-111_V2.0 complete exam, Soaoj can help you pass the Huawei exam once, Soaoj costs both time and money.

We have arranged the content of H13-111_V2.0 exam guide for you, what you need to do is to recite and practice.

NEW QUESTION: 1You support Windows 10 Enterprise computers that are members of an Active Directory domain.Recently, several domain user accounts have been configured with super-mandatory user profiles.A user reports that she has lost all of her personal data after a computer restart.You need to configure the user's computer to prevent possible user data loss in the future.What should you do?**A.** Remove the .man extension from the user profile name.**B.** Add the .dat extension to the user profile name.**C.** Configure the user's documents library to include folders from network shares.**D.** Configure Folder Redirection by using the domain group policy.**Answer: D**Explanation:Folder Redirection allows administrators to redirect the path of a folder to a new location, which can be a folder on the local computer or a directory on a network file share. Users can then work with documents on a server as if the documents were based on a local drive, but are available to the user from any computer on the network. Folder Redirection can be found under Windows Settings in the console tree by editing domain-based Group Policy via the Group Policy Management Console (GPMC).

NEW QUESTION: 2To ensure the communication manager messaging application is working, what are three tests that can be performed? (Choose three)**A.** Call the station and after the call is answered leave a message.**B.** Log into communication manager

messaging to verify CDOM is running. **C.** Leave message on a covered call and verify that the message waiting indicator (MWI) lamp on the receiving extension is lit. **D.** Call the messaging hunt group from any of the stations to ensure it is answering. **E.** Call one of the two stations that you set as subscriber to the messaging server, and let the call go to coverage. **Answer: C, D, E**

NEW QUESTION: 312. A network engineer is configuring a Cisco Unified Communications Manager (CUCM) cluster. The engineer wants to ensure that the cluster can handle a maximum of 100 concurrent calls. Which of the following actions should the engineer take to achieve this goal?
A. Configure the cluster to use a single gateway.
B. Configure the cluster to use a single gateway and a single gateway.
C. Configure the cluster to use a single gateway and a single gateway.
D. Configure the cluster to use a single gateway and a single gateway.
E. Configure the cluster to use a single gateway and a single gateway.
Answer: B
