NEW QUESTION: 1

A solution designer is configuring an IBM Content Manager Enterprise Edition resource manager application which will be used against a single resource manager database. The configuration is designed to provide scalability and high availability

Which of the following configurations provides this solution?

- A.** Configure a resource manager application using a WebSphere Application Server Base version installation, and integrate Tivoli Storage Manager Server as a migration option
- B.** Configure a resource manager application as a WebSphere Application Server Network Deployment cluster installation using a separate Java Messaging Service data source database.
- C.** Configure a resource manager application using a WebSphere

Application Server Base version installation, and increase the maximum heap size for the resource manager JVM to 1024.

NEW QUESTION: 2

Refer to the exhibit.

Which action should be taken to ensure authentication if the RADIUS servers are unavailable?

A. Assign the user to the default role.

B. Set the default login realm to LDAP

Changing the server priority is not logical answer.

The command "aaa user default-role no-login" means that remote users who do not have a user role cannot login. This means that assigning the user to default role will not be able to login.

The "aaa authentication login default" and "aaa authentication login fallback" has identical configuration. The fallback uses RADIUS server. We should change it to local.

C. Set the fallback login to local.

D. Adjust the priority of server 10.1.1.1 to 1.

Answer: C

NEW QUESTION: 3

The following expression is used to focus OLAP data in the rows of a report: filter([sales_and_marketing].[Order method].[Order method].[Order method type], [Revenue]>150000000).

Which of the following statements describes the purpose of the expression?

A. To return the set of members whose revenue is less than 150000000 for any year.

B. To filter the years to show those having revenues greater than 150000000 by order method type.

C. To filter the cell values by subtracting 150000000 from the revenue for each year and order method type.

D. To return the set of members whose revenue is greater than 150000000 for the sum of the opposite edge.

Answer: D
