NEW QUESTION: 3

What are two barriers Of adoption in an organization? (Choose two)

- A. implementation issues
- B. new product sales motion
- C. organizational announcements
- D. hiring practices
- E. lack of knowledge on solution

Answer: A,B

NEW QUESTION: 4

You have a simple web application that has a single Front Controller servlet that dispatches to JSPs to generate a variety of views. Several of these views require further database processing to retrieve the necessary order object using the orderID request parameter. To do this additional processing, you pass the request first to a servlet that is mapped to the URL pattern /WEB-INF/retrieveOrder.do in the deployment descriptor. This servlet takes two request parameters, the orderID and the jspURL. It handles the database calls to retrieve and build the complex order objects and then it dispatches to the jspURL.

Which code snippet in the Front Controller servlet dispatches the request to the order retrieval servlet?

- A.

```
request.setParameter("orderID", orderID);
request.setParameter("jspURL", jspURL);
```

Dispatcher view

```
= request.getDispatcher("/WEB-INF/retrieveOrder.do");
view.forwardRequest(request, response);
```

- B. String

```
T="/WEB-INF/retrieveOrder.do?orderID=%d&jspURL=%s";
String url = String.format(T, orderID, jspURL);
```

```
Dispatcher view
= context.getDispatcher(url);
view.forwardRequest(request, response);
C. request.setAttribute("orderId", orderId);
request.setAttribute("jspURL", jspURL);
RequestDispatcher view
= context.getRequestDispatcher("/WEB-INF/retrieveOrder.do");
view.forward(request, response);
D. String
T="/WEB-INF/retrieveOrder.do?orderId=%d&jspURL=%s";
String url = String.format(T, orderId, jspURL);
RequestDispatcher view
= context.getRequestDispatcher(url);
view.forward(request, response);
Answer: D
```
