NEW QUESTION: 1

100. A network engineer is configuring a Juniper SRX Series firewall. The engineer needs to configure a security policy to allow traffic from the Internet to reach the internal network. The engineer has configured the following configuration:

```
set security policy from-internet to-internal then permit all
```

The engineer has also configured the following configuration:

```
set security policy from-internet to-internal then deny all
```

Which of the following is the correct configuration for the security policy?

A. The security policy is configured to deny all traffic from the Internet to the internal network.

- B. User can have a maximum of 10 devices.
- C. User can have a maximum of 5 devices.
- D. User can have a maximum of 1 device.

Answer: D

Explanation:

The Maximum number of devices setting enables you to select the

maximum number of devices that a user can have in Azure AD. If a user reaches this quota, they will not be able to add additional devices until one or more of the existing devices are removed.

NEW QUESTION: 2

- A. Option B
- B. Option E
- C. Option D
- D. Option C
- E. Option A

Answer: A,B,C

Explanation:

NEW QUESTION: 3

Exhibit 1

Active Users-Sales

Security Group Overview/ Asset Creation
