Network Appliance NS0-163 Trustworthy Pdf: NetApp Certified Data Administrator, ONTAP Professional - Soaj Reliable Platform

Network Appliance NS0-163 exam dumps questions and answers are tested and approved by senior Network Appliance certified experts, Our company are established more than 10 years, our quality of NS0-163 valid practice test questions are the leading position in this field.

We have three versions of NS0-163 guide materials available on our test platform, including PDF, Software and APP online, A few team members are young, Every detail of our NS0-163 learning prep is perfect.

Of course, discounts are not equivalent to low quality, [NS0-163](#) We make sure you to get a 100% pass for the test, We provide the service of free update NS0-163 exam cram one-year , so you can free update your NS0-163 test questions and NS0-163 test

answers free once we have latest version.

So our NS0-163 training guide is once a lifetime opportunity you cannot miss, They should also develop their hand-on exposure on the all topics, We are very confident in the quality of NS0-163 guide torrent.

New NS0-163 Trustworthy Pdf | Latest Network Appliance NS0-163 Free Dumps: NetApp Certified Data Administrator, ONTAP Professional

Secure payment system of buying NS0-163, Our NS0-163 preparation materials will be the good helper for your qualification certification, If you are finding it difficult to use our NS0-163 brain dumps, then you can always get in touch with our technical support team and they will resolve all the issues that you are facing.

We are happy to tell you that The NS0-163 study materials from our company will help you save time.

**NEW QUESTION: 1** Smith and James were partners in S and J Partnership. The partnership agreement stated that all profits and losses were allocated 60 percent to Smith and 40 percent to James. The partners decided to terminate and wind up the partnership. The following was the balance sheet for S and J on the day of the windup: Of the total accounts receivable, \$10,000 was collected and the remainder was written off as bad debt. All liabilities of S and J were paid by the partnership. The property and equipment are sold for \$32,000. Under the Uniform Partnership Act, what amount of cash was distributed to Smith?  
**A. \$30,000 B. \$25,200 C. \$34,800 D. \$26,000**  
**Answer: B**  
**Explanation:** Choice "a" is correct. Upon termination of the partnership creditors are paid first. After payment of creditors, each partner is deemed to have an account that is charged or credited an amount equal to the partner's contribution plus or minus the partner's share of any profits or losses. The agreement between Smith and James was that profits and losses would be allocated 60% to Smith and 40% to James. The partnership had \$82,000 in assets (\$40,000 in cash, \$10,000 from accounts receivable, and \$32,000 from property and equipment). The partnership had \$90,000 in liabilities and capital. Of the \$82,000 in assets, \$24,000 is paid first to creditors. This leaves a balance of \$58,000. Smith contributed \$30,000 in capital and James contributed \$36,000 in capital. With \$66,000 owed in capital and only \$58,000 available, there is a deficit of \$8,000. By agreement, Smith is responsible for 60% of the \$8,000 deficit or \$4,800. Smith would be credited an amount equal to his capital (\$30,000) minus his share of the loss (\$4,800) or \$25,200. Only choice "a" reflects this amount. Choices "b", "c", and "d" are incorrect, per the above calculation.

**NEW QUESTION: 2** An administrator has a requirement to export decrypted traffic from the Palo Alto Networks NGFW to a

third-party, deep-level packet inspection appliance. Which interface type and license feature are necessary to meet the requirement?  
**A.** Virtual Wire interface with the Decryption Port Export license  
**B.** Decryption Mirror interface with the Threat Analysis license  
**C.** Decryption Mirror interface with the associated Decryption Port Mirror license  
**D.** Tap interface with the Decryption Port Mirror license  
**Answer: C**  
**Explanation:**  
Reference:

<https://www.paloaltonetworks.com/documentation/71/pan-os/pan-os/decryption/decryption-mirroring>" Before you can enable Decryption Mirroring, you must obtain and install a Decryption Port Mirror license. The license is free of charge and can be activated through the support portal as described in the following procedure. After you install the Decryption Port Mirror license and reboot the firewall, you can enable decryption port mirroring. "

**NEW QUESTION:** Cisco AMP for

Endpoints  
**A.** Android  
**B.** Cisco IOS  
**C.** Windows  
**D.** AWS  
**E.** Chrome OS  
**F.** OS X  
**Answer: A, C, F**  
**Explanation:**  
<http://www.cisco.com/c/en/us/products/security/fireamp-endpoints/index.html>
